SURRENDER OF BOERS

In the District Between Kimberly and Mafeking Reported.

BRITISH CONTINUE THEIR ADVANCE.

Lord Roberts Repeats to the London War Office the Report of General Baden-Powell—Other News From the Front.

Kimberly, May 23.—About 800 Boers have surrendered at Vryburg, north of Kimberly and a little more than half way between that place and Mafeking. The road is all clear from Mafeking and all opposition in this direction is practically ended.

London, May 23.—Once more Lord Roberts is advancing in force. The wait at Kroonstad is over and already the main British army is about 20 miles north of its former resting place.

Judging from the dispatches Lord Roberts is at Honing Spruit station while, flanking on either side of the railroad, General French's cavalry and General Hamilton's mounted infantry are both

slightly in advance of Lord Roberts and threatening to envelope the Boer position, which extends for 20 miles due north.

General French probably crossed the Rhenoster river near the junction with Honing Spruit which runs thence to Honing Spruit station.

The main British army will probably advance along the railroad while General French converges from the west and General Hamilton from the east.

Against this overwhelming force the Boers will probably follow their usual tactics of retiring to positions which doubtless have been prepared in advance for their occupation. General French and General Hamilton are separated from each other by about 40 miles while Lord Roberts is within 12 miles of General French and 30 miles of General Hamilton.

Since the last dispatch left Honing Spruit Lord Roberts has doubtless still further advanced and by now is either engaging or following the retreating Boers. Definite dispatches received make it clear that the Vaal river has not yet been crossed, as nearly 40 miles intervene between it and Lord Roberts' advance flankers.

The small number of casualties sustained by General Hamilton in his occupation of Heilbron bears out the theory that the Boers will make no strenuous resistance until the Vaal is reached or until even later.

Dispatches from Heilbron say the Boer General Dewet had 4,000 men posted on an adjacent hill, but that he retired when General Hamilton approached. President Steyn fled from Heilbron May 20, and his destination is not known.

Baden-Powell's Report.

London, May 23.—The war office issues a dispatch from Lord Roberts under date of Hongspruit, May 22, announcing the receipt by him of the following message from Major General Baden-Powell:

"Mafeking, May 17.—I am happy to inform you that Mafeking was successfully relieved today. The northern and southern columns joined hands on May 15 and attacked the enemy yesterday and after a small engagement, entirely defeated them with loss. The British casualties were three killed and 22 wounded.

"The relieving force marched into Mafeking at 9 this morning and the relief and defense forces combined and moved out and attacked the enemy's head laager. We shelled them out and captured Snyman and took one gun, a flag and a large amount of ammunition, stores, etc. Five dead and 15 wounded Boers were found. The enemy appears to be retreating in all directions except one commando, which is lying low possibly to cover the retreat of the remainder.

"Captain MacLaren and Corporal Murray were found in the Boer hospital. They are doing well. The townspeople and the garrison of Mafeking are heartily grateful for their relief."

Lord Roberts' dispatch further says: "Ian Hamilton reached Heilbron in the morning after a series of engagements with a Boer force under Dewet who is retiring before him. Broadwood has captured 15 Boer wagons. There have been 75 casualties in Hamilton's force.

Pushing Forward.

Hong Spruit, Orange Free State, May 23.—General French has crossed the Rhenoster river, northwest of here. This movement combined with General Ian Hamilton's occupation of Heilbron, renders the Boers position 20 miles in the British front untenable. The latest reports, however,

received say the burghers are prepared to make a strong resistance and possess 15 guns. Fifteen prisoners were taken.

NEGRO LYNCHED.

Calvin Kimbler Is Taken From Officers and Strung Up.

Pueblo, Cal., May 23.—Calvin Kimbler, the negro who shot and killed two young white girls and seriously wounded his wife Sunday was lynched at 1:33 a. m. by a mob of 1,500. Kimbler was captured in Denver and brought here by the officers. Upon the arrival of the Rio Grande train a mob of determined citizens surrounded the train at Eighth street depot, overpowered the officers and took the negro from the train, put a rope around his neck and dragged him to the corner of Eighth and Santa Fe avenue, a distance of about three blocks. The rope was quickly put across a telegraph pole diagonally opposite the Grand hotel and the negro strung up. The rope broke twice but the third attempt was successful and the crowd dispersed in an orderly manner.

A Sweeping Change.

Washington, May 23.—The anti-teen bill which has attracted widespread attention and against which the military authorities recently reported was ordered favorably reported by the house committee on military affairs with an amendment which will exclude liquor from the capitol and other public buildings. The bill reported is known as the Bowersock bill and applied to premises used "for military purposes." These words were struck out making the bill apply to "any premises used or owned by the United States."

Attitude of Gold Democrats.

Indianapolis, May 23.—The gold Democrats of Indiana held an important conference here to determine their position in the national campaign. Leaders say their purpose to nominate a national gold Democratic ticket will be influenced by the course of the Kansas City convention. If no concessions are made a national ticket will be put in the field. The gold men have assurances that free silver will not be endorsed by the Indiana Democratic convention.

Answer Withdrawn.

New York, May 23.—Judge Lacombs of the United States circuit court has consented to the withdrawal of the answer made by the Third Avenue railroad company in the suit brought last February by the Old Colony Trust company of Boston, Mass., and the vacating of the order appointing Hugh J. Gant receiver. Mr. Gant is still receiver of the Forty-second Street, Manhattanville and St. Nicholas Avenue railway.

Apartment House Burned.

Chicago, May 23.—A fire which started in the four story Jackson apartment building, almost destroyed the building inside of 45 minutes. It is stated by the police that every person in the building escaped. The Jackson apartment building contained nearly 200 apartments.

Slight Chances For Recovery.

New York, May 23.—Rocky Tommy Walsh, who was thrown from his horse at Morris park and seriously hurt, was said to be a shade better, but attending physicians say his recovery is only a very remote possibility.

No More Plague Cases.

San Francisco, May 23.—The steamer Australia brings Honolulu advises to May 15. At that date there had not been a case of the bubonic plague for 46 days and business had resumed its former activity.

Death of Dr. Burns.

Toronto, Ont., May 23.—The Rev. Dr. Alexander Burns, late principal of Hamilton Wesleyan college and at one time president of the Iowa Wesleyan university and of Simpson college, Iowa, died here.

Extensive Fire at Galion.

Galion, O., May 23.—Fire destroyed the crating department of the Central Ohio Buggy company, the Capitol hotel and several stores and residences. Loss \$100,000; insurance \$70,000.

Oregon Town Burned.

Portland, Ore., May 23.—Word has been received here that the business portion of Lakeview, Ore., has been destroyed by fire. Lakeview has a population of 700.

Arthur Re-elected.

Milwaukee, May 23.—Grand Chief Engineer P. M. Arthur of the Brotherhood of Locomotive Engineers was re-elected at the convention.

Postoffice Looted.

Peru, Ind., May 23.—The postoffice at Gilead, 12 miles from here was entered by burglars and the safe blown open. A number of blank money orders and cash and stamps were taken, but the postmaster refused to state the amount. There is no clue.

THE USES AND ABUSES

11 Injunctions Set Forth in a Report to Social Reform Club.

OUTLINE OF LEGISLATION WANTED.

It Is Proposed to Limit This Great Power So That Judges Can Not Use It in a Tyrannical Manner at Their Will.

New York, May 23.—The matter of injunctions that have recently been issued against the Cigarmakers' union forbidding it to picket the factories of manufacturers whose employees have struck, and forbidding it also to pay strike benefits to the strikers has been taken up by the Social Reform club, which listened to a report made by its committee on injunctions composed of John Brooks Leavitt, Earnest H. Crosby, Mornay Williams, John D. Kerman and John Frankenheimer.

The report was read by Mr. Leavitt and contained the following recommendations: That an attempt be made to obtain concerted action throughout the country in favor of urging upon the national and state legislatures the passage of acts providing:

(1)—That injunctions shall not be issued against any but parties to the action, their agents, servants and attorneys.

(2)—That when an injunction, however valid in part, prohibits the lawful use of the highway or the right of free speech or lawful combination to advance joint interests it shall be void in toto.

(3)—That all persons who are charged with disobedience of an injunction in respect to matter which might be the subject of an indictment shall have the right to demand a trial by jury upon issues of fact to be properly framed.

(4)—That whenever the question whether injunction peding an action should be granted in a labor dispute depends upon the determination of questions of fact arising on conflicting affidavits either side shall have the right to demand that a jury be forthwith empaneled to try the same upon issues properly settled.

And lastly that it be recommended to labor organizations to have the questions arising under existing law carried to the higher courts under the direction of the general body in each trade rather than of local associations, to the end that any usurpation of judicial power in any corner of the land, however distant and obscure may be effectively restrained and brought to light.

Mr. Crosby expressed the opinion that the power of injunction was a tremendous power to give to judges and enabled them to use it in a tyrannical manner.

In the speaker's opinion the respect due to a law depended upon what it was. If it had been passed by \$5,000 votes it was not entitled to respect. There was danger in this country in respecting things that did not deserve respect. There was great usurpation by the federal courts. Their jurisdiction was limited and the people should see that it was not extended. Mr. Crosby said he noticed that judges were nearly always on the side of the capitalists and not on the side of the laborers.

Meat Bill Passed.

Berlin, May 23.—The reichstag, voting by roll call, adopted the meat bill by 163 to 123 votes. As it has passed the reichstag in addition to prohibiting the importation of canned or sausages meat, the bill provides that until December 31, 1903, the importation of fresh meat shall only be allowed in whole, or, in certain cases, in half carcasses and that the importation of prepared meat shall only be permitted when it is proved to be innocuous, which is regarded as being impossible of proof in the case of consignments of salt meats under four kilograms in weight.

State Boards Discussed.

Topeka, Kas., May 23.—The session of the conference of charities and corrections was devoted to a discussion of state boards and state commissions. A report was submitted by Leontine Lincoln, Fall River, Mass., L. G. Kinn, chairman of the board of control in Iowa, and of Simpson college, Iowa, died here.

New York, May 23.—A local paper says that of the 450 delegates to the state convention 162 are pledged to insist on Bryan delegates to the national convention and 126, nearly all from New York City, are unpledged. The remaining delegates have not yet been chosen.

New York, May 23.—A local paper says that of the 450 delegates to the state convention 162 are pledged to insist on Bryan delegates to the national convention and 126, nearly all from New York City, are unpledged. The remaining delegates have not yet been chosen.

TIME LIMIT REMOVED.

Methodist Conference Breaks Away From an Old Usage.

Chicago, May 2.—By a vote of 433 to 438 the Methodist general conference abolished the time limit of pastorate, thus finally disposing of one of the most important questions before the great Methodist body and doing away with one of the fundamental features of the intercal system of the denomination. Hereafter, according to the amendment to the discipline just adopted by the conference, preachers will be appointed annually by the bishops, with no limit on the number of years a pastor may serve one congregation, except the limit imposed by his own limit and popularity with his congregation. He will still be a pilgrim and a stranger but now may tarry longer than five years. Fraternal greetings were exchanged with the Presbyterian assembly now in session at St. Louis.

United Presbyterians.

Chicago, May 2.—The 42nd general assembly of the United Presbyterian church of North America began here in the Sixth United Presbyterian church. The opening sermon was preached by Rev. S. R. Lyons, D.D., president of Monmouth college, Monmouth, Ill. The greatest discussion in the assembly will be over the revision of the testimony on secret societies. Many members of oath-bound organizations are now in the church and it is causing trouble. Among the candidates prominently mentioned for moderator are Rev. F. B. Foster of Omaha, Rev. J. P. Gleason of College Spring presbytery, and Rev. A. S. Biddle of the New York Presbytery.

The Luther League.

Cincinnati, May 23.—It was estimated from the registering that there were 1,500 delegates here for the second day's session of the Luther league. The opening service, conducted by F. A. Hartrauf, of Philadelphia, was proceeded by musical selections. The reports of President E. F. Eilius of New York, Secretary M. C. Olson of Chicago and Treasurer Cornelius Eckhardt of Washington, were followed by the reports of the executive, literature, publication, finance and world's league committees. After the call of the states, according to the size of their respective organizations, addresses were delivered by F. H. Knubel of New York and Elmer F. Kraus of Leechburg, Pa.

A New Note Sent to Porte.

Constantinople, May 23.—The United States legation having vainly waited four weeks for a reply to the note of April 24, regarding the American indemnity claims, Mr. Lloyd C. Griscom, United States chargé d'affaires, handed to Tewfik Pasha, minister of foreign affairs a new note, couched in more precise terms and insisting upon a prompt settlement. The note produced a great impression as the porte thought the matter postponed, if not abandoned. It is believed that the United States will not wait so long this time for an answer, American indulgence thus far having made a satisfactory impression upon the porte.

A Nervy Train Crew.

Oakland, Cal., May 23.—A train of box cars laden with merchandise including a large quantity of dynamite and black powder caught fire in the railroad yards here. There was a scarcity of water and though facing almost certain death the firemen and train hands coupled the cars to switch engines and drawing them under the tank used for filling the boilers of locomotives succeeded in extinguishing the flames before an explosion occurred. The roof of a car containing several tons of dynamite was burned through.

Want Support Not Politics.

Washington, May 23.—Mr. Fischer, one of the Boer envoys, speaking of their general plans for the future said it was their purpose to visit 10 or 12 principal cities of the United States and explain to the people whatever they might wish to know of the Boer cause.

They were, he said, particularly anxious to avoid even the semblance of taking any part in American politics. They came to plead with the whole American people for sympathy and support. The cities which they will visit have not yet been determined.

New York, May 23.—Interests identified with the International Tobacco company, soon to be organized in opposition to the American and Continental Tobacco companies announce that 10 additional options have been secured by them on plants located in various parts of the country and the work of incorporating the company will be accomplished before the expiration of the present week. It is said to be more than likely that the capitalization as originally proposed will be increased by several millions.

PREDICTS A COLLAPSE

Of the Insurrection In Philippines Against American Rule.

NEWS POINTS OF SCHWAN'S REPORT

Greatest Obstacle In the Way of the Complete Pacification Is the Distrust Between the Soldiers and Natives

Washington, May 23.—The war department has received a report from Brigadier General Theodore Schwan, United States Volunteers, dated on the transport Thomas at sea, May 12, 1900, in which he submits a thorough review of the state of affairs in the Philippines up to the time of his departure from Manilla on April 16 last, making particular reference to what he believes to be the irretrievable collapse of the Filipino insurrection as a whole, and expressing the conviction that if left alone, the Filipinos would soon demonstrate their absolute inability to govern themselves.

"The principal islands," he says, "are now as never before held with an iron grip by the military. In Luzon all the interior as well as all the coast towns of importance, are occupied by American troops."

General Schwan states that the sole hope entertained by the insurgents for a revival of the insurrection, lies in the supposition that the United States troops will be obliged to abandon many of their present positions at the opening of the wet season, owing to the inability to secure supplies during that period and also "in the possibility of victory for the anti-expansion party in the coming presidential campaign.

General Schwan says the insurgents think that such a victory will mean the withdrawal of all the military forces.

"With the exception of the savage mountain tribes and the numerous bands of brigands," says the report, "the great majority of both the educated and peasant classes in the Philippines heartily desire a restoration of peace and order under American rule. The many bands of robbers and brigands form a disjointed nucleus for a prospective reconcentration of insurgent forces and the renewed prosecution of the rebellion."

Continuing, the report says: "Indeed, these guerrilla bands and their depredations constitute all that is implied by the 'Philippine insurrection,' as it now exists, the leaders, military and political, of this 'forlorn hope' realizing that, should they allow the insurgent movement to die its natural death, the American rule to be firmly established, they would have to abandon forever their present positions of influence and be relegated to their former obscurity."

The operations of troops and the pacification of the towns not yet subdued will be carried on regardless of the rainy season, as stated above.

In concluding his report General Schwan says: "The most serious obstacle in the way of the complete pacification of the islands now lies in the mutual distrust between the troops and the inhabitants. This I believe will disappear after each class becomes more thoroughly acquainted with the other and the benefits to be derived from an intimate relationship with the military becomes appreciated by the natives. On the other hand the work cut out for the troops will be greatly facilitated when they gain the confidence of the well-disposed natives. When the latter find the troops have come to stay, they undoubtedly will resist the exactions of the robber bands, turn about and assist the American troops in ferreting out their haunts and plans and the days of this guerrilla rebellion will be numbered."

Twenty-Two Miners Killed.

Raleigh, N. C., May 2.—Twenty-two miners, 10 white men and 12 negroes lost their lives in an explosion at Cummock coal mines, Chatham county, N. C. The explosion occurred at 4:30 p. m., and is supposed to have been caused by a broken gauze in a safety lamp. The accident was in what is known as the east heading and between 40 and 50 men were in the mine at the time. Five were brought out alive from the east heading, while none of the men in the other parts of the mine were injured.

SINCE Mr. Taylor is manifesting such a desire to keep out of Kentucky, the Republicans don't seem so anxious to re-nominate him for Governor.

THE wild talk of Taylor and Finley about Kentucky Courts is only a blind. The man suspected of or charged with crime is generally anxious to keep away from the courts.

GOVERNOR MOUNT in his talk about the courts of Kentucky and his action in the Finley case not only insults the people of this State but defies the Constitution of the United States.

KENTUCKY Republicans are beginning to manifest a disposition to drop Mr. Taylor. The Public Ledger wants to let him down easy, however, by saying he ought to be given something "just as good" as the Governorship.

THE trust has advanced prices on all grades of refined sugars. The berry and fruit season is setting in, and every housewife who wishes to store up a supply of canned and preserved eatables will now have to contribute a little more to the treasury of the combine.

GOVERNOR MOUNT of Indiana not only defies the authorities of Kentucky but sets himself above the Constitution of the United States. Paragraph 2 of Section II of the Fourth article of the Federal Constitution reads as follows:

"A person charged in any State with treason, felony or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime."

It will be observed that the Constitution says the person charged with crime shall be delivered up "on demand of the Executive authority." Mr. Mount defies this plain clause of the Constitution, and turns Mr. Finley loose.

BRYAN VERSUS MCKINLEY.

The Bourbon News, in terse and pointed paragraphs, gives the following pen-and-ink sketches of the leaders of the two great parties:

William J. Bryan has opinions and the courage to defend them.

William McKinley also has opinions, but lacks the courage and never sticks to them.

Bryan has faith in the people and stands up for their rights.

McKinley has no faith in the people and sacrifices their rights at the demand of trusts.

Bryan opposes imperialism and works for freedom and a republican form of government.

McKinley champions imperialism and works for an aristocracy of money at expense of the people.

Bryan opposes the trusts which rob the people, enslave the workingmen and competition.

McKinley fosters and protects the trusts regardless of the people and uses all his influence to make the rich richer, which has the result of making the poor poorer.

Bryan has a practical plan to restrain the trusts and if elected President he will put it into execution.

McKinley has no plan to restrain trusts, and if he did have such a plan the trust managers, who own him, body and soul, would not allow him to enforce it.

Which of the two men would best serve the people as President of the United States?

There is no choice between them. Bryan stands for all the people desire in the way of justice and protection. McKinley represents the trusts and imperialism and ignores the people.

The people are going to elect a President next autumn. Will they put a friend or an enemy in the White House?

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

THE GOEBEL CASE.

A Brief Outline of What the Prosecution
Expect to Prove at the Trial of
the Accused.

[Louisville Evening Post]

From an authentic source your correspondent learns what the prosecution expect to prove in connection with the Goebel assassination. The following is only a brief outline:

"Gov. Taylor, Charles Finley and Caleb Powers conceived the idea of starting a row in the State House. Finley and Powers were the promoters. Gov. Taylor finally agreed.

The idea had not been entirely abandoned when Henry E. Youtsey approached W. H. Culton, a clerk in the Auditor's office, and told him how easy it would be to shoot Goebel as he came to the Senate chamber. The escape to the cellar and then out was easy. Finley and Powers were apprised of this; Gov. Taylor was not.

Youtsey was a crack shot, but when asked to do the work, demurred.

Caleb and John Powers and Charles Finley and others then arranged a meeting to be held at London, Laurel County, on Sunday, January 28. The meeting was held. The killing was arranged to take place on Monday, January 29. For some reason Jim Howard, who was to fire the shot, remained over at the house of Rev. White.

"Howard did not get in until Tuesday. He left the train, walked to the Executive building, and there final arrangements were made which led to the firing of the shot that killed Senator Goebel.

"The prosecution further expects to prove that Senator Goebel was killed by a bullet from a Marlin rifle; that the rifle had belonged to Youtsey; that Youtsey had rifled it off, and that when the fatal shot was fired it belonged to Grant Roberts; that Youtsey secretly obtained possession of it, and as secretly put it back in the cellar of the Executive building.

"The prosecution expects to prove by Senator Alexander, of Louisville, that he was in Gov. Taylor's office when the shot was fired, that Gov. Taylor drew a revolver and ran out of the office; that George Hemphill, one of the clerks in the Assistant Secretary of State's office, saw Gov. Taylor trying the door leading into the Secretary of State's office and heard him say it was "a shame the door" was locked.

"Gov. Taylor's action, the prosecution will hold, is expected to prove conclusively that Gov. Taylor knew from what office the shot came.

"The prosecution expects to prove that Jim Howard and Henry E. Youtsey were the only occupants of the Secretary of State's office, and that the shot was fired either by Howard or Youtsey, while the man that fired the shot was reclining on a lounge, with the butt of the rifle resting on a lounge beneath the second window from the west end of the Executive building and the barrel resting on the window sill.

"The prosecution expects further to prove that several days after the shooting Youtsey went to Culton and offered him money to leave the State; that Youtsey said that Taylor wanted him to leave; that Culton went with Youtsey to Gov. Taylor and asked him why his absence was desirable, and that Gov. Taylor said: "Don't say anything more about it."

"Capt. John Davis, the prosecution expects to prove, fed the mountain feudists at his house.

"Green Golden was only aiding his brother, F. Wharton Golden, in collecting the mountain feudists.

"W. H. Hazelipp, the prosecution expected to prove, but failed to do before the grand jury, gave a man named Black a revolver and told him not to let the — — get out of his sight. He is supposed to have referred to Senator Goebel.

RIVER NEWS.

The Pittsburgh and Louisville Packet Company to Build Two New Boats.

Other items.

The Pittsburgh and Louisville Packet Company, owners of the City of Pittsburgh, have determined to build two new steam-boats and will fight the White Collar Line in the trade between Pittsburgh and Cincinnati. The new boats are to be from 285 to 300 feet long, with a capacity of from 800 to 1,000 tons.

They will be stern wheel boats, to cost about \$45,000 each. They are to be equipped especially for passenger trade. Capt. John M. Phillips, commander of the City of Pittsburgh, is now receiving bids for their construction. He intends to cover the trade the length of the Ohio and will enter into competition with the Memphis packets as well as those in the Pomeroy and Louisville trades. Capt. Phillips said: "The other companies combined to keep us from reshipping Southern freight. We have too much money invested in the City of Pittsburgh to let her lay idle and we must build these new boats so that we can handle reshipping as well as way business."

The E. A. Andrews, that has been fitted up with a new hollow shaft at Middleport, will be ready to go to work this week, providing there is sufficient water to justify her in starting out. The Andrews has, on an average, handled about 50 per cent. more coal and empties, between Kanawha and Cincinnati, than any boat that ever plied between the two points. She has a record of having handled seventy barges on the round trip—thirty-five each way.

Keystone State, Pearce and Stanley due up to-night. Wells and Bay down.

Falling at most all points above.

PAINFULLY INJURED.

Miss Laura Sparks Meets With an Accident at the Power Laundry.

Miss Laura Sparks, aged about twenty, met with a serious accident Wednesday between 9 and 10 o'clock while at work at the Maysville Power Laundry on West Third street.

She was employed at a collar and cuff machine, and started to lighten the pressure. It seems she did not fully understand the working of the machine, and in some way a lever or some other portion of it got loose and struck her a violent blow on the head. She was removed to her home, where Dr. Samuel dressed her injuries.

It was feared at first that her skull was fractured, but she was getting along very well this morning and will probably be out in a week or so.

A BOTTLE of sixty-eight-year-old whisky, taken from a pillar of the old market house, is on exhibition in O. H. P. Thomas & Co.'s handsome windows on Market street.

COLLIER FOR GOVERNOR.

Movement Started for Him Since the Flight of Taylor From State.

FRANKFORT, Ky., May 22.—A number of Republican leaders to-night gave it out that a movement has been set on foot to bring Col. Daniel R. Collier into the race for the Republican nomination for Governor.

Col. Collier was Taylor's Adjutant General and the boom for him is taken as a concession in Republican circles that Taylor's flight from the State retires him from further consideration as a possible candidate this fall.

PLENTY OF IT.

Lots More Proof Like This and It is All From Maysville People.

"The proof of the pudding is in the eating of it." If any city or town in the Union has sufficient proof on the following subject it is Maysville. Genuine merit is finding its reward in the hearty endorsement of local citizens. When people right here at home, friends and neighbors of our readers, give a statement like the following for publication it is proof convincing for the most skeptical. Read this testimony: Mrs. O. Crosbus, of 436 East Second street, says: "I value Doan's Kidney Pills exceedingly. Their wonderful healing and curative powers were very quickly made manifest. I advise others suffering from their back or kidneys to go to J. Jas. Wood & Son's drug store, corner of West Second and Market streets, procure Doan's Kidney Pills and give them a fair trial."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's and take no substitute.
